DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: A measuring gas cell comprising a bottom plate, a channel plate, and a cover plate, in combination with all other limitations of independent claim 1, and further, the method of using a measuring cell with the three plates described above, including all other limitations of the method claim 11 is not disclosed nor deemed obvious in view of the prior art of record. The prior art does not disclose nor render obvious a measurement cell for gas whereby a cover plate seals the measuring cell in the upward direction, thus granting functionality and/or an unexpected result for the design choice of the three plated cell as claimed in the present application. Further, to use such a cell with an anesthesia or respiratory device as in claim 11 is not disclosed nor deemed obvious in view of the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The examiner has cited various references that are deemed relevant to the general state of the art of the present invention.
